

I have been listening to K-LOVE radio here in El Paso, Tx. for over 2 years now. I know a lot of people who also listen to it. It is a family radio station that is contributing to the soul and mind of El Paso and other communities as well. I support K-LOVE with monthly monetary contributions. The music that they play on this station has a positive impact on all who hear it. If we lose this station, we will lose a channel to extending this message of love to all human kind.
